

Google Custom Search Engine

Introduction

Google is one of the most popular search engines available, but there are drawbacks to a search of the entire Internet. By creating a Google Custom Search Engine, you can limit your search to a specific list of approved, relevant and kid-friendly websites.

Create Your Google Custom Search Engine

- 1. Visit the Google Custom Search Engine website at http://www.google.com/coop/cse/
- 2. Click the Create a Custom Search Engine button.

- You will be prompted to log into your Google account if you are not already signed in. Please note that you cannot use a 4J account to create a Google Custom Search Engine. You must sign in using a standard Google account. If you need one, sign up at <u>http://tinyurl.com/newgoogleaccount</u>
- 4. Enter the following information when prompted:

🕨 🕂 🛃 http://www.g	oogle.com/coop/manage/cse/create/1?auth=DQAAAL8AAAAARjhfieOuvnTx8tLjs= CQ* google custom sear
Create a Custom Search En	gine

loogic custon	1. Set up your search engine 2. Try it out
Basic information	
Give your search engine	a name and provide a brief description.
Search engine name:	
	for example, Real Climate Search Engine
Search engine description	n:
	for example. Climate Science from Climate Scientists
Search engine language:	[naish
What do you want to se	
	Only sites I select. Only sites i select. The entire web, but emphasize sites I select.
	The entire web.
Select some sites	
Specify a list of websites	to search. You'll be able to edit this list and add more sites later. Tips on formatting URLs.
Sites to search:	
	List one URL per line
Select an edition	
	ke to create. Bleam more.
Editions:	 Standard edition - Free, ads are required on results pages.
	Business edition - Starts at \$100 per year, no ads on results pages.
I have read and agree	to the Terms of Service.

Search engine name: Title your search engine. For example, "Room 12 Dinosaur Project."

Search engine description: This is a brief but more description overview of your search engine's purpose. What do you want to search? This will vary based on your needs, but you will probably want to choose "Only sites I select." or "The entire web, but emphasize sites I select." Sites to search: Paste some website addresses here, one per line. For example:

http://www.4j.lane.edu http://www.cnn.com http://www.opb.org

- 5. Check the box labeled "I have read and agree to the Terms of Service."
- 6. Click Next
- 7. Click Finish.

Search engines I've created

 On the next page is a link to your search engine. Simply click on its title to go there.

David's Search control panel statistics delete custom search element New

 In the address bar at the top of the window, highlight your entire address and copy it. Now it may be emailed, linked from your website, or distributed via whatever other means you prefer.

Editing Your Google Custom Search Engine

- 1. Visit the Google Custom Search Engine website at http://www.google.com/coop/cse/
- 2. Click on "manage your existing search engines." and log in.
- 3. Modify your search engine by clicking on Control Panel.
- 4. Click Save Changes when finished.
