

# SBMS Math Success 7th/8th Class Structure & Expectations

Name: \_\_\_\_\_

## What should I bring to class each day?

1. Binder
2. Paper
3. Writing Utensil

## Is there homework?

There will be no homework for this class

## When can I get extra help?

Office hours are Tuesdays & Thursdays during lunch and by appointment

## Is this a trimester class?

This may be a trimester class for some of you, an all year class or somewhere in-between. The goal is to get you to a place where you are successful and confident in your grade level math class.

## Can I do my homework from my grade level math class?

No, in Math Success we will focus on skills to support you in your grade level math class. We will work on review skills, current skills and some preview skills.

## What if I'm having trouble with my grade level homework?

Let Ms. Jenson know if there is a concept you are struggling with. We can always make time to learn and practice specific concepts during class. However, if you need additional support remember your math teacher has office hours, our school has a homework club Monday - Thursday and you can always attend my office hours even if I'm not your grade level teacher.

## How is grading done?

Grading will be a Pass or No Pass.

You will earn a Pass if your participation is a 70% or better towards your math goals. Participation is completing assignments, discussing concepts and putting effort towards your work.

## How do I communicate with Ms. Jenson?

E-mail is the best form of communication:

[jenson\\_s@4j.lane.edu](mailto:jenson_s@4j.lane.edu)

(541)790-8300 and leaving a message also works
