

Students used this book to practice decoding Hiragana characters this past Fall. This reading book will be used to decode each letter sound, but it is not necessary for students to understand direct translations for each word/sentence.

This reading book introduces the 46 basic hiragana and irregular characters and combinations. With it, students will learn how to read and pronounce each character.

Audio Guide

- An audio guide is provided on Sayaka Sensei's Website (Click on ***Reading*** on the menu bar and click the Title).

Directions for Reading Practice

- Point at each letter as you read
- Open your mouth widely
- Read out loud
