

## Plant growth comparison –

Use the Observation Form for all ideas listed below.

1. Plant two different types of seeds (ex: carrot and pea) and compare their growth over a three week period. See me for seeds.

2. Growing corn A/B assignment – see set up below

10 Minutes Of Your Life: Watching Corn Growing in Water (10 day o

3. Avocado growing A/B assignment – yes, you can grow an avocado tree.. This is one you need to start waaay in advance as it can take 1 month just for the seed to germinate, but it's really cool if it does. The best part is you get to make guacamole with the rest of the avocados. See link below for set-up: <http://www.ghorganics.com/Germinating%20and%20Growing%20Avocados.html>
