

# Lesson 5: How Do Plates Interact With Each Other?

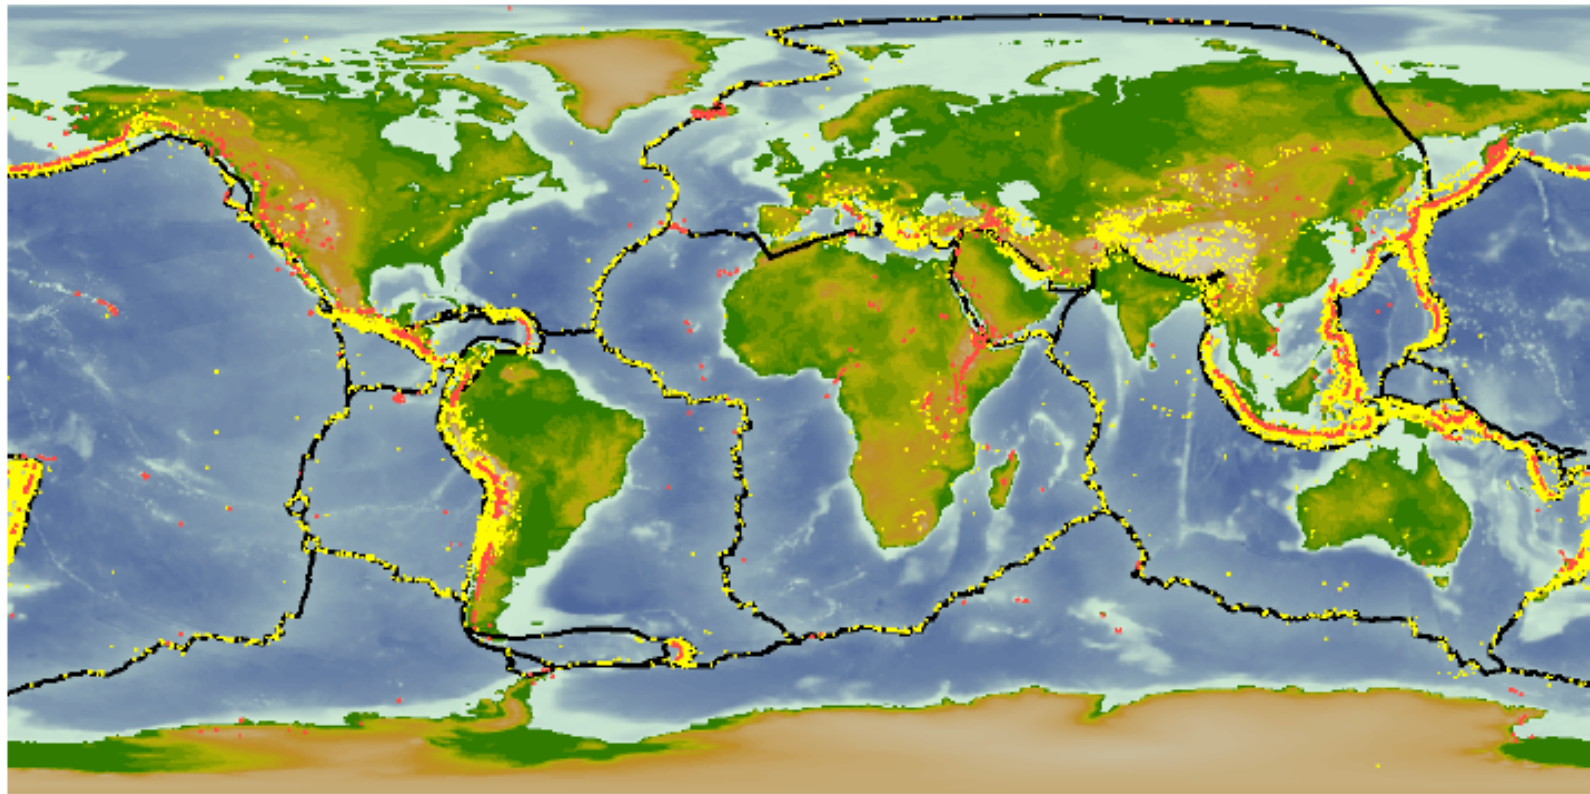

Activity 5.1: What Happens When Plates Move?

Reading 5.1: Ring of Fire

Activity 5.2: Two Types of Rocks Comprise Plates

# Introduction

- What are the different ways that plates could move in relation to each other where they meet at plate boundaries?

■ Earth's Plates

■ Earthquake

■ Volcano

# Plates, Earthquakes and Volcanoes

3. What kind of pattern do you observe on this map?
4. How might geologic events and features (earthquakes and volcanoes) be related to plate tectonics?
