

In the Spotlight!

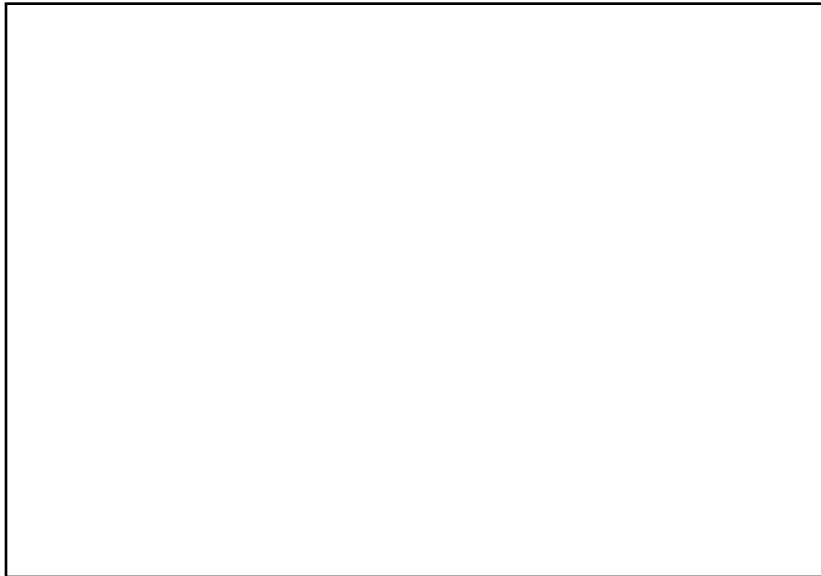

Date:

Dear

Today, your child did something amazing! We've enclosed the photo below for you to keep.

Children learn in all kinds of ways. Sometimes their best learning happens "in the moment," indoors or out, often with hands-on materials. never shows up on paper. Our classroom will periodically send photos home to share with you these exciting learning moments!

Moreover, some of our childrens' best creations have to be taken down at cleanup time. Taking a photo "saves" the creative moment in a small way.
