

Subtraction of Three-Digit Numbers

To subtract 3-digit numbers, subtract the ones first, then the tens, and then the hundreds. If you need to, regroup 1 ten as 10 ones, or 1 hundred as 10 tens.

Subtract 385 from 543.

1. Look at the ones. $5 > 3$.
Regroup 4 tens 3 ones as ____ tens ____ ones.
2. Look at the tens. $8 > 3$.
Regroup 5 hundreds 3 tens as ____ hundreds ____ tens.
3. Write the difference. $543 - 385 = \underline{\quad}$

Use the computer.

4. Click **New Problem**. Enter 845 and 467.
5. Look at the ones. Do you need to regroup? ____
What happens when you click **Regroup** once?

6. Look at the tens. Do you need to regroup? ____
What happens when you click **Regroup**?

7. Click **Subtract**. Write the difference.
 $845 - 467 = \underline{\quad}$

Use the computer to subtract. Click **Regroup** if you need to.
Record the difference.

8. $459 - 289 = \underline{\quad}$ 9. $814 - 675 = \underline{\quad}$ 10. $665 - 587 = \underline{\quad}$

Make up your own 3-digit numbers to subtract.

If you need to regroup, click **Regroup**.

If not, click **Subtract**.

11. _____ - _____ = _____ 12. _____ - _____ = _____
13. _____ - _____ = _____ 14. _____ - _____ = _____

**If you need more ones, regroup 1 ten as 10 ones.
If you need more tens, regroup 1 hundred as 10 tens.**
