# Splashtop Remote: Getting Started

**Install and Configure Splashtop on your Computer**

1. Go to http://www.splashtop.com/remote

2. Click the button labeled **Get Streamer**.

3. Click the link to **Download Splashtop Streamer** for Mac or Windows, and wait for the download to finish.

4. Open the Splashtop installation program that was just downloaded and follow the instructions that appear on the screen to install the program.

5. If the **Splashtop Steamer** program doesn't automatically open after installation is finished, find in from your Applications or Programs folder and open it.

6. Click the **Splashtop** logo that appears in your menu bar (on Mac, the top right area of the screen near the clock) and select **Turn on Splashtop Streamer**.

7. Create a security code and enter it twice. (8 to 20 alphanumeric characters with both letters and numbers.)

8. Click the **Network** tab and enter your **Gmail** username and password. If you don't have one you can register at http://gmail.com

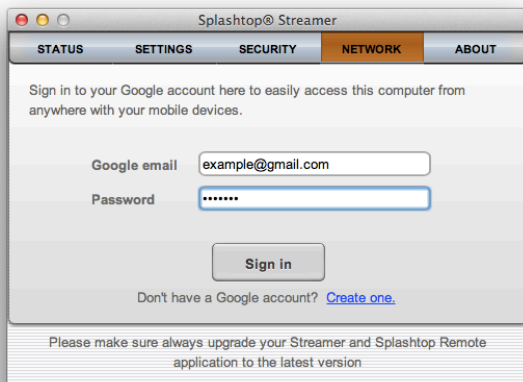

9. Click the Sign In button.

**Install and Configure Splashtop on your iPad or iPod**

1. Open **Safari** and sign into the wireless network if you are not already connected.

2. Open the **App Store**.

3. In the search field at the upper right corner of the store, tap and search for **Splashtop**.

4. Find **Splashtop Remote Desktop** in the list of apps. **Important:** There are **two** versions of Splashtop. One is for iPhone and iPod touch, while the other is for iPad. **Please make sure you select the correct one**.

5. Tap once on the price next to the version you want to download. It will turn into a green BUY APP button.

6. Tap the BUY APP button and enter your App Store password when prompted.

7. Wait for the program to download, then open it.

8. On the Splashtop **Welcome** screen, tap **Go**.

9. Tap the **Continue** button on the next screen.

10. Tap **Finish**.

11. Tap the gear icon in the top right corner of the screen.

12. Tap the **Internet Discovery** option.

13. Enter your **Gmail** email address and password. Be sure to use the same account that you entered on the computer.

14. Tap **Continue**, then **Back** (upper right) when finished.

15. Tap the **Back** button one more time. Your computer's name should appear in the list.

16. Tap once on the name of your computer.

17. Enter the **security code** you created earlier.

18. Tap the **OK** button to begin accessing your computer.
