Pool Problem

Refer to the following diagram when working through the pool questions.

- 1) How many tiles would it take to put a border around the outside of the pool above? Show work! You can write on the diagram and use space below. What would the perimeter of the pool with border be?

- 2.) On the back make a pool that is 4×4 .

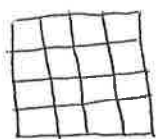

Figure out how many tiles that would be needed to make a border around it. What would the perimeter of the pool with border be?
